Cobalt wrote on Fri, 30 December 2005 20:42omg man read this carefully your small brain may take it is, IF YOUR GOING TO GET TESTED FOR CHEATS WHAT IS THE USE IN RG??????????????????????????????? Its solely to support n00bs brains into thinking they are safe.. Your not making points at all, your contradicting yourself.

Is that all you think RG does? I guess you know how to bypass it, right? just like everyone else. Not that even if i would believe you, you wouldn't tell BHS how you do it either. The point of RG is that is stops 99% of the people who intend on using cheats. (even if it was 10% of the cheaters it's still better than NOTHING) Let me tell you again. If a moderator thinks you are cheating, having RG is one way of saying that you passed their test (I'd say it was the best since it's the fastest and most efficient way - 99 out of a 100 isn't bad) If you didn't have RG then the mod would then go and test you and ask for screenshots. A good mod would ask for a test and a screenshot if you had RG as well. What's the difference? that you're more liable to be cheating if not using RG, than using it. It's a fact. It's a geniune fact. You can't dispute it because it's true. Argue if you want, but it'll be wrong. Besides, even if you STILL think for some reason RG did nothing; then WHY did they ban people who TRIED bypassing it and got caught? It's one less cheater and that's something i'll go and use and support renguard for.
Let me ask this again, if you can find a valid reason to not use renguard other than it not working on your computer, then do not complain about being forcerg'ed. Thank you.
