yup, one thing you can do if your lucky, is the.... BLUE BEAM RUSH! lol, i remember that... anyways, ya, if theres only like 1 tank on the field, (make sure there hurt) u run at them with your blue beam, (sum will kill u, sum wont) ya.. u run at em, keep firing that blue beam, then once you star repairing them for a split second, THROW YOUR C4!! this does work ussaly if the dude in the tank is a idiot lol, when this happens to me, i let the engi approch me, but once he gets a a certain distance i back up a bit, so theres always a big space, then if the engi gets hostile with c4, YA RUN EM DOWN lol, ya anyways... just my 2 cents
