Well after two weeks of playing in mission 4 Stowaway I finally got the torpedo racks to disarm. I had to get real close to the rack on the left hand side and press the E key. Ugh! I did that several times before and it didn't work, and now it did. ERRR!. Now, I'm in Mission 5 Deadeye. Trying to rescue the team, but this is hard to do even if you're playing in easy mode. Wish me luck!
