And PIC Sydney reigns Ion Cannon crap on Raveshaw every day of the week and your wondering why I'm putting this under Tactics & Strategies because a good tactic AND strategy is be GDI. If anyone thinks Nod is better post your reason why here and I'll tell you why GDI dominates over your crappy thought that Nod rules.Hmmm -- in the right hands - a P-51 can beat a Me-262.If you can use the strengths and

show you have a closed mind --- so this will fall on deaf ears.So - IMHO - this is not a tactic.....
