(Airstrip was down) I laughed so hard watching base defenders getting mowed down trying to get this one little engy that was waaaaaaaaaaaaay far away from me. Sniper cover is a good idea if you can get just two people together.I love sniper cover when planting a beacon. Most enemy engineers tend to stand still while disarming after dispaacting the person who planted the nuke/ion.It makes them easy pickings for your sniper cover.Line them up.....1, 2, 3Pop...Pop...PopThose are usualy noobs.You'd be surprised that when a group is repairing a beacon and their friends start falling, they still don't seem to move.
