quote:Originally posted by A51 falcon: quote:Originally posted by H3liCat:the pitts is a great server because of the admins, and i all their rules are nothing but sensible. if you get 100 points for attacking a building, the opposing team gets 50. how is that fair? besides, there's no fun in it. maybe if people actually got like 6 MRLS to shoot hand at same time, then it would be slightly strategic...You cant fit 6 mrls behind the Barracks in Islands to shoot at the Hand and have every missile hit. The most you can have back there with every missile hitting is 3 or maybe 4. I dont think its an exploit, for the reasons that badbender stated. In a 24 or less man game, there is a saying:Fortify your rear, and you'll get your front shot up.
