I gotta admit, behind the waterfall is a rarely used spot for snipers. Just this morning actually, a Havoc was hiding back there, and he fired a couple of shots that got my attention. Then some n00b stopped to repair his stealth tank RIGHT IN FRONT OF THE WATERFALL!!! I saw the havoc getting ready to run out to it, so I ran behind the waterfall and killed him. I told him nice try, but then he had the nerve to say 'I wasn't even at my compter' when he had just fired off two shots at an arty like 20 seconds earlier.bah
