quote:Originally posted by Blazer:I tried the running backwards trick in a 1 player LAN game today...zapped every time. Is there some other part of the equation?P.S. The Obelisk is not an anti-infantry weapon. It is anti-tank. The AGT is anti-infantry, and no amount of juking and jumping will help you to get by it. They were designed with these strengths and weaknesses on purpose.yea u can also just strafeif theres 2 buildings with obilisk in the middle u can strafe from 1 to another wihtout dieing
