-Do not try to steal your enemies tank when they are in it.(some noobs kept trying to steal my tank cuz I was standing still looking round and instead they killed themselves.....hmm wonder if they saw a "green arrow" lol)-Do not try to take out base defenses as a sniper(ive seen many team messages asking why I shot the AGT or OB with all my ammo as a sniper and it didn't get damaged?)-Do not place c4 on ur team(sorry but when were kicking the others team ass I have fun loading up my guys with c4.....scares the other team when they see them loaded with c4 but it is a good tactic it doesnt kill them only there enemy if they are surrounded)-Do not take on and Orca/Apache as an engee.....just saw some retards doing it like 2 minutes ago hmmm i love noobs
