i always warn the perps after i plant c4 on them -- makes the boink even sweeter.of course i wait 15 seconds before i do so -- that way i can be sure they cant defuse it.If there are 2 perps standing by each other - i usually will plant the c4 - then hit each of them with my laser- if im lucky -one will die - if i die - i might get that kill on both when they run back to the PT to recharge.... --- love that timed c4.
