ok, i joined a new server, and the map was field. so, i'm on Nod. we do the little shoot the harvy, build up some credits/points. so, someone said they were going to get a nuke. i said anyone want to flame rush? all of the sudden, we had the perfect plan!so, we had for flame tanks, and one nuke. we rushed GDI, and surprisingly, they didn't even expect it. so, on top of the distraction, we managed to kill the agt, war fac, and got the tib ref destroyed with a nuke. we rushed again, and got the barracks. it was a beautiful thing, to see teamwork and strategy.unfortunately, after that game, about a billion n00bs joined the Nod team (no team mix up), so it all went downhill from there
