---

Im more relieved then mad. I hate getting tickled, prodded or dragged by my sis to get off the comp. After I get my own comp, I won't get tickled, prodded or dragged away from MY comp. So far I have...-GeForce2-Monitor-190 MB Ram-10 GB Hard drive (plenty for 1 person)-and possibly optical mouse (MAYBE, I may get my dads opt mouse...if its compatible)And the rest of the stuff...shouldn't be too much(getting the rest of my stoof of my Aunt's BF).
