I was playing on a pacific server the other day{dont remember which one} but the gdi team was all havocs {12} the map was feild and when a tank rolled onto the feild it got shot by every unit and got iced pretty quick, infantry didnt last more than a second. it was a really amazing site to see. the next game they where all raveshaws and man was that crazy, each one of them shot at the buildings and they went down in no time, every time a tank popped out of the war fac it was gone in less than a few seconds, yet again a cool site to see{even tho i was losing}
