uhh mammoths are the best-thats why u have HOTWIRES backing u up for repairs in the fields... idiots... these amounts of vehicles should do u well:1 apc, to carry ur hotwires out, and to gun down any infantry, 3 mammoth tanks, to blow the **** out of buildings, 2 medium tanks, to cover the mammoths, and 1 mrls, to blow the **** out of the buildings, and at least 4 hotwires, any thing else is a plus(i.e. snipers, PIC...)
