I like \$150 dollar sydney or initate because sydney is good aganst infantry and fairly good aganst vehicles. the initate, if undesurbed can set c4 on a building and take down the the rest of the building with the chem. sprayer. it can heal on tiberian, kill infantry and vehicles alike, and starts with fair heath, hes a pretty good character for the cheap \$200. (oh and can some1 tell me how to get a sig.?!)
