Your all fools, except Zrking. IF you use 5 mines to one door in the PP, you can instead take those 5 mines and stick em to a sbh soldier. THE mines become MOBILE, and you can easily cover both entrances, even kill the hotwires in the field and caves before they even reach ur base. Youll be able to cover the entire base using only 1/2 the usual amount of mines, and u can use the rest to wire a few carbombs.
