That's an old trick. And, you will attract GDI attention with your nuke beacon. Go with 2 engys\1 technician - at least they do their work silent and faster. 1 Technician is better then 2 engys (unless you do it with a buddy), because, usually, second engi blows his remote c4 too early / AGT kills him / he is just a n00b who wants a ride in your buggy [June 18, 2002, 08:44: Message edited by: u.c.]
