Does anyone have a problem with the fact that we kick idiots? A few people complained about that, so we kicked them too, but I'd like some opinions.How do you decide if a person is an idiot?Well, for starters: tankstealers, people who repair the other team, people who set off beacons in their own base, tankstealers, people who don't repair when they're standing in front of the MCT with a hotwire/tech, people who whine a lot... oh, and fatties. Our server is a no fatty zone.It's pretty common sense: don't be a jackass, contribute to your team, and you don't get kicked. Simple as that. Wat is a fatty???
