Ok I cannot prove this with a picture because he kicked me.(SO DON'T FLAME ME)Anyway I was a hotwire on feild minding my buisness reparing structures when I see the AGT is shooting at the tunnel.So common sense tell me there someone planting a becaon. Sure enough Mutant205 is ther a stealth placing a becaon.I pull out my Automatic Pistol and show him death with a few shots to the head. Then I'm just about to disarm it when BANG i'm kicked looks like he couldn't stand losing a petty game.
