quote:Originally posted by u.c.:rofl . What an idiotic way to judge ppl. It works ONLY in infantry games, w/o snipers at all. Or in snipers only games (however u can boost ur kills count, just killing some n00bs, who stand still). Here is a simple way to have amazing K/D:1 Be engy2 buy apc3 run infantry over /kill them with machine gun 4 repair ur apc5 be happy6 brag about ur high K/D rating and 1337 skills. On the other hand...U can use apc, to manage rushes. Of course u will have a lot of deaths, and lack of kills. Guess, who is more usefull for team?The only way to figure out if person is really good is to watch him for several games.Whats wrong with running over 1337 people in an apc? lots of dead black hand chaingunners and mendozas or ravesaws will clear the way for you tanks making it easy for them to rush the base rather then somone mindlessly rushing into a base hoping to blow something up just to get points.
