I love parachuting out just before my chopper is destroyed. Then I start shooting everyone on the ground as I float down to earth. You have to be carefull though. You're kind of a sitting duck if there's a sniper in the area. And watch out for buildings. My chute got snagged on a building in City once and I was stuck there until a rocket soldier came along and put me out of my misery. hehe, the parachute mod doesnt really give you a parachute, it just makes you fall very slowly once you jump out or get shot out of your aircraft, doesnt work by jumping off tall buildings tho.
