That was me KIWI! I can't believe how many people I see falling out of the sky who don't pull the rip cord on their parachute. I love parachuting out just before my chopper is destroyed. Then I start shooting everyone on the ground as I float down to earth. You have to be carefull though. You're kind of a sitting duck if there's a sniper in the area. And watch out for buildings. My chute got snagged on a building in City once and I was stuck there until a rocket soldier came along and put me out of my misery.
