quote:Originally posted by SgtZim:Oh, yeah, the "torpedo run". Not very effective, but funny. My fav C4 trick is to time c4 a sniper, PM him, and get three guys as he panics and runs to engineers to get them to disarm it.   Well, what I do when I hear or see that I have timed C4 on me, I run into tiberium. At least he doesn't get the kill.
