... wow... This topic of a lost topic won't die. Yes the topic was interesting, but it got closed, and to post a topic about it is to push Devs, and WW passions about it. Can we let it go, let the past be the past, and move on for a brighter future, even if it looks grim, don't dwell on the past. Dwelling on the past is what makes a grim looking future come true. Letting the past go allows for changes to make any future brighter, no matter how grim it looks. Let the C4Kitty post go, it is in the past, and dwelling on it puts a damper on your future. I know this because I used to suffer from depression because I dwelled on the past. Now I let the past go, and I am happier for it. You should too. Let go of the C4Kitty post, you will only make yourself sad thinking about it, in most cases. DROP IT! [June 10, 2002, 13:40: Message edited by: IModx1]
