I was a chem trooper strifing thru the tibarian on volcano and 1 regular engy was shooting at me with pistol from a distance I was shooting him while strifing and jumping and he hit me for massive damage (like a direct headshot) on every bullet- Than I said they he had an aim bot on "all chat" and didn't even respond. than later in the game I was a raveshaw and I noticed I was getting hammered quickly and I died before I could turn around and it was again that same person as before with a pistol and an engy. Also he was chatting with 1 other dude the entire game alot and I noticed his guns doing huge damage on me also no matter if I strife or jump it was always a direct headshot hit type damage!! Also I noticed that those 2 people had almost 2 times the amount of kills in that game than anybody else. I think thats proof enough. 1 was I think named "Dirtyharry"BTW-This was in a 32 player tourney server[May 27, 2002: Message edited by: AzWhoopin]
