Well actualy, i have readeed the manuel enough for my needs, and yes i adjust to what my team needs...When under attack i repair and let the attacking to someone els because it has happand to me enoug that my structure been gone because everyone attacked the tank.But if you think that its best to only put engis in a APC our wrong, what if all enemy units are waiting up?that those pistols aint gona help you know...And sorry your not a n00b i was a little \*\*\*\*ed of at a game i just played (it was full of rambo's)so sorry bout that...But think about what i just said...
