But thank you for the appology and I appologize to you for ever saying anything mean to you. Oh and can I ask you a question?? What do you think they will do to Ack when they find out he's been posting pics. with the f' word on it? I hope the punishment has to do with bending him over and raming his *** little map up his azz, maybe his skins too.P.S. I think I ticked Ack off when I insulted his crap*y modding skills.there does seem to be a ring of truth to the fact that this forum is not looked at nearly as often as the main general forum. frankly i have no idea.i read in your profile you were from canada. ever heard a band called scratching post? i love them and think they are from tornoto but cannot get their music here. anywayz, thats off the subject.[May 18, 2002: Message edited by: aqualite7]
