quote:Originally posted by Founder of YASA:I played with Aeonking before and he is a good player. In the games I played I have never seen hime repair building or disarm beacons. He is good in tanks and put on a lot of pressure on the other team and he is not using MRLS shooting the hand from the GDI base on island. He normally using Med tank or light tank to attack not MRLS or artillery.He is NOT a good player.You want a story to back that up? Even if you don't, here it is.About a week ago, I was playing on Under as GDI. We had Nod bottled up inside their base. AeONKinG sat outside of their base, at least FIFTEEN FEET from the entrance, and did NOTHING but fire at it. He hit NO UNITS.All of the units that were hitting us were Artillery and laser troopers. He was behind the wall, taking no damage. Even worse, he had a Hotwire who would NOT stop repairing him. HE NEVER NEEDED REPAIRS!! I said this to the Hotwire: "GET YOUR ****ING SELF OVER HERE AND REPAIR THE THREE OTHER MAMMOTHS AND VEHICLES TAKING A POUNDING! AEONKING'S RETARDED SELF DOESN'T NEED ANY REPAIRS! YOU ****ING RETARD!"What was his answer?"I PROTECT ONLY AEONKING!"All the while, our Mammoths fell one by one... I kept mine until a few soldiers rushed me from my blind side and nailed me with C4. AeONKinG survived, of course. He had a Hotwire CONSTANTLY REPAIRING HIM and NO ONE ELSE.We almost lost the game because of those two idiots.AeONKinG = n00b.
