buggy>hummer>apcline 'o death...and of course, stealth tank>all Oh yes, and the hummer DOES have a vast advantage over any larger vehicle: It doesn't slow down as much when turning. Anything bigger practically stops when turning tightly, which gives the buggies and hummers a chance to OwN if the driver doesn't have turret camera on... WHICH few n00bs do.[May 23, 2002: Message edited by: Nukelt15]
