This is probaly allready known but I'll post it anyway.If you are on a level (with high places that you will die if you fall off) you will probally get a sniper or 2 that will use these places to their advantage (I find that most sniper will go right to the edge of there space) simply get right behind them and walk in to them and you should be able to push them of the edge,PS if the fall is too little have one of you teammates ready with a tank to finish the job for you
