I usually don't post flaming n00b posts, but this one needs to be heard (and that I need to get my anger out, anyway) I was playing on this Westwood server with some guys called Mmartinz and JakeEnvy. The first guy joined in the middle of a game on Field, and he started saying how he was going to kick arse next game (cause his team was losing). Well, next game, his team did by using a diversionary APC to rush the Plant, while a buggy blew our Weap Factory. He comments on how our team sucks, but i'm nice enough to compliment him on his strategic skills. Well, soon enough, he keeps insulting everyone and I so that we start getting into an argument. Next match, we were at Under and on the same team . He and some guys took a few MRLS and rushed the Strip, nearly blowing it, and I came with a Med. Well, he went out to repair and got his MRLS stolen by a Stealth Hand, which I had to destroy. When I gave him some friendly advice on never repairing in the field, he starts blowing a fuse at me and tells me to shut up. At that point, i'm calling him a n00b cause he's obsessed about winning, a braggart, and doesn't listen to advice. Someone on our team gets a lucky APC rush and destroys the obelisk, and I complimented on how the Ion in our base served as a distraciton so the APC (which they thought was a distraction) could get in. Well, JakeEnvy butts in and tells me to shut up and that i'm a moron (because I complimented him?). And at the same time, Mmartinz is insulting the other team again. So, after we won, I left the game and posted this 10 minutes later to cool my anger . But now that i'm done, I feel fine
