For all of those in the skin contest... i would want you guys to make some crazy skins so i can try them out..... im not much of a skinner myself so i would want you guys to do it. Something that would be really cool is...Solid Snake (He is such a bad a**) as a havoc skin James Bond as a havoc skin (hotwire and him would be great together) A Boba Fett skin for the stealth laser rifle black hand (hey it works!) Hopefully you guys can put them in a mod so they all will be visible over the net. I just felt like putting in some suggestions.
