i entered a game on the under.mix map with 40/40 people and was assigned to Nod who were losing 2000 to 1000 by the GDI!! imediatly i said [ like a cocky S.O.B. ] I'll save you guyz don't worry!! then after deing once as a grunt i spotted two medium gdi tanks being repaired by GDI hotwires! on the side ramp route near the tiberium field so i ran as fast as i could towards them! backed up by a flamer and a fellow grunt, the flamer scared the hotwires away and me and my teammate stole the two GDI tanks and took em back to base! and then we pushed back the GDI tank onslot and seiged their base at about 15 minutes left! i was ac\*\*\*alating points quickly and rising in rank, by the time there was 5 mins left i was the MVP and my medium tank finally got destroyed! i hopped into a light tank and countinued the onslot pounding away at the GDI, but they had a mammoth and about 4-5 mediums so they pushed back our siege! then we fought out tank wars in the tiberium field! my light tank got destroyed and i spent the rest of the time repairing my fellow teammates and their tanks!! and the game ended with my being MVP and our team won! how ironic i followed through with my joke at the begining that i would save the team and i did! LOL not a bad story eh!
