All he reads are the few posts of people that stick up for him, although I don't understand why they do stick up for him at all.If Aircrap really thought about it, he would have no alternative but to realize that he's been a complete jerk and that people dislike his attitude, his grammar-checking everyone, or his lame flames that have no power behind them (he's like a flame-thrower compared to a flame-tank).Now I understand that he was once a very helpful guy. That's what people say anyway. He's got the low number of 53 for his entrance to this forum, so you know he was looking forward to this game big time. He's got a lot of good points and a lot of useful information under his belt. He'd probably even be a kewl friend to meet and know. But the fact of the matter here is that he's a conceited, know-it-all, grammar-checking, flaming anyone at all that doesn't agree with his exact point-of-view. This makes him a #1, state-of-the-art, AircraftCarrier-sized bunghole. He's the kind of gamer you don't want to meet because he's kewl; you want to meet him to kick the smack back down his throat and make him beg for mercy while he's kneeling and crying like the punka\$\$ he really is.AirCrap, you need to realize that most of the community doesn't like you. They may have really enjoyed your posts in the past, but count the posts man, use your fingers and toes if you have to but the fact of the matter, you complete moron, is that people find you to be an A\$\$hole!Lets compare your entire assumption to your member number. It is somewhere in the range of 14,500. Now, assuming that you haven't been watching the forums for a long time, you're making wild guesses about who I am, what I do, what I have done, and so forth...You have no idea of what I really do for the WS Community. Oh sure, I flame people here. It bothers you that much? I think you need to seek mental help if you're offended by a person you'll likely never meet, who's flames are meant for comedy in almost every case.Now, have you checked ANY community fansite for ANY WS game besides the Dune series? You'd probably understand what I do for everyone, then. I've spent almost two years creating RA2\YR maps, RA2\YR wallpapers and war stories, about fifteen different C&C themed music tracks, RA2\YR map creation tutorials, my own website, working with the Renegade beta and aircraft beta, making Renegade fanfiction and wallpapers, Renegade maps, and much more... You have NO IDEA of what I do for people.Yeah, I realize that has almost nothing to do with this, but I wanted to put it in. You know why? Because you're assuming almost everything about me because of a forum post or two that corrects people's grammar.Time for some apologies: I'm sorry if you're offended by someone offering knowledge to you. If you can't take it, drop off the face of the Earth for all I care.I'm sorry that you're so emotionally and/or mentally unstable that you let me manipulate you into making a topic whining about what I do on a virtual forum.I'm sorry that you can't accept the reality that others ARE different from you, and unlike you or other people that you may know, I refuse to accept everyone as being equal, because to me; that is an impossibility.As someone said before, "Cry a river, build a bridge, and get the \*\*\*\* over it."
