The beacon I put on the PP wasn't even found until it was too late, and I didn't set C4 there. The other two were - Barracks/Weaps.On City, there were another two - the refinery and the weaps - so that makes four total - not six. The PP on Walls and the PP on city were unopposed. One was a C4 takedown, the other was a beacon.But the hilarious thing was after it happened a second time, I announced - "I can't believe you didn't see the C4 after it killed you last time." Of course I didn't get a reply...but I just found it funny that after it'd burned the disarming parties twice that they weren't looking - and after two times on City they still hadn't gotten the picture....
