quote:Originally posted by archon370:Actually when defending the base Ive been able to get top score on my team just repairing, the problem is if we're under that heavy of attack we usually lose My problem is how people leave at the end of the game just so they dont go down in points, it means your taking all the punishment for losingYour score is still updated even if you leave the game.. I don't know what they think they're trying to get away with. That's why there are sometimes gaps in the score list at the end, from people that left the game. Unless of course the person that left wasn't in the game long enough.
