We were playing on a map with no base def. and I was on NOD(HAHAHA aircraft killer) anyway NOD was being beaten back to our base so I just grabbed a flamer unit and a nuke beacon and ran uninnterrupted to their base, I though it was quite funny that they were all assaulting our base, so I ran to their TR and placed the beacon, no one and I mean no one disarmed it or even tried. So after that I ran to their WF and placed my timed C4 on it's MCT then I let it detonate and finished it with my flamethrower. The sad Thing is I did this again and destroyed their PP and barracks and won the game. I was tremendously lucky I had the same people in my team next game so we base ****d again.
