i plyaed a game last night and with like 25 minutes kept all we had was the pp and teh barracks (we were gdi) and there entire team just kept buying apaches and chinooks (wich would be killed at high altitueds so they would all fall to threre death. but they never once brought any flmes in just aircraft. We eventually won on points becuase of the many vehcil kills. During that entire time i think 1 becon was placed.
