This happened today - and is why I LOVVVE flying maps. I was on a ladder game, and myself and someone else got a chinnok and two Hotwires. We loaded up and flew to the Nod Base ( City ) The ob hit us once....twice...Boom. We RAN to the PP. The other guy got killed, but I made it. I Planted C4 on the MCT...but...thanks to me placing the C4 a bit off...the PP went to 1 red bar of health....Normally, i would have pulled out. But, I said - to hell with it, and whipped me pistol out. It took me 5 mins - But I destroyed it!!!! I COULD NOT BELIEVE that the Nod team just let the " Warning - NOD powerplant under attack " messageS ( Yes - the 5 of them ) fly by!!!! I destroyed a PP with a Pistol!
