the thing I HATE about the vehicles is when they blow up you just drop out and die 98\% of the time. They should let you parachute like in the original red alert so you have at least a little chance to not die when it blows up, and people only buy air vehicles because they are new and fun- I just never lag (my rig is 2.2gzh, 1 gig o ram, and so on) eheheh so lag is a foriegn concept to me
