quote:Originally posted by Mikeon:that happend to me before. I was in the mammi on under and a nod apc comes out and rams into my tank. Next thing i know big explosion fps down to 1 and whenever thing clears i find myself crushed under the running apcLOL. That was probly me..   I always put 5 mines on my mmaoth to protect from flame tanks, but when you do that you have to amke sure you only run over people in reverse.. or you'll waste your mines.
