Hey Nukelt15 there may be no I in team but there is a M and a E and that spells ME .I agree with you, if a building is being repeaird by engies and your doing no damage to it break off your attack and attack another building, after all the engies are in only one building and that leaves other buildings open to attack, and when they run out to fix it they'll be like bunnies frozen in the sight of a 1000Watt spotlight \*boink\* .Lets see how long we can keep this topic going.
