yeah, but if they have enough engy or hotwire, they can diffuse c4 AND beacon:takes 1-2 hotwires to disarm beacon, and the rest to c4, then join beacon disarming. A better way is to put it IN a building, then putting 1-2 proximities around it (preferably unseen) and the rest near the buildings entrances (again preferably unseen but reactive). This is the best way so far i have tried a lot of ways.
