yep, waht i do, when im entering a base with a vhecile, i shoot a differnt buidling than the one im attacking, make it seem like a diff buidling is under attack. Then you slip in to the actaul building queitly, itll proably be empty, then you go in and plant some C4 on the MCT , and then plant the beacon. Ofourse, when the C4 explodes, its gonna get ALOT of attention, but then they have to choose betwen A) repairing the building B)Defusing the beaconAny by the time they do get there, distract them and by the time your dead there shouldnt be enough time to defuse!
