On the islands map there were countless times that snipers were literally shooting a person every 2 seconds which was impossible, I accused them of cheating, got laughed at. I was angry, but just accepted that I might be wrong, ran down into the tunnels, and was promptly sniped through the walls by one of the accused cheaters who I knew at that moment was up above shooting at the gdi base from those cliffs across that small bridge. He shot me while I was below in the tunnels, as if to mock me, but he didn't know what he really did, he sealed my belief that there could very well be a wallhack of sorts.
