Never mine a place u can't really defend by yourself. When I see a mine field in the tunnels of C&C_field for instance, i just take an engy (cost 0 => I don't care if I die) and go demining... Each defuse is 30 pts. 10 mines defused = 300 pts !!!On this kind of map (AGT/obelisk defended) placing undefended mines can cost victory. This is as dumb as placing an undefended beacon.
