quote:Originally posted by kiwi98989:A mine counter would be a god send! i hate playing with people and i tell them "i'm planting mines, no one else place them or we will go over limit" yet on maps like walls, they place all the c4 at the base entrance or in the tunnels. its too easy for the mines to be deactivated in the tunnels and most stealth beacon soldiers or even techs can just hug the wall and slip right past the mines and head right to the unmined buildings. actually RDL and myself did exactly what you just said. He babysat the bottem as a hotwire, me th etop. both of us managed to get a bodygaurd each. Only one person managed to doa stealth nuke. And thanks to the bodygaurd who took out the troop, i managed to defuse the beacon. I crapped myself because it had played the sound of the sirens and rushing of air of the bomb-it had just hit the deathly silence before the bang, but that was the only beacon they managed to place in the entire game. and because i had a massive amount of cash, i bought about 4 mammoth tanks for my teammates. poor nod didn't stand a chance.
