Does any one have any ideas for a renegade web? I am starting one although I am limited on space and just to free providers (like angelfire). I have thought of 4 sections:Main (home)NewbiesStorylineDownloadsDoes any one have any ideas? Oh, if you can find any good free providers, I would appreceiate it! P.S.Some source code would be nice too. I am not a programmer just a 14 year-old who is trying to make a web.
