well, i just treid the "kemmy" tactic, and it worked. i believe i was on complex (the one with the big tiberium meteor?) and i was Nod. i grabbed a chem warrior, ran across the tib field, and at that point a buggy drove by whic hwas my unintended distraction. i ran right into the war factory, tossed on a c4, and started spraying it. 30 45 seconds later, "GDI War Factory Destroyed". chem warriors are my new best friend.
