This brings to mind a time when i upgraded from a light tank to a mammoth on under. I was driving up the hill over the tunnels and saw a fully repaired mammoth just sitting by itself on the hilltop. So i got out of my Lt and got in the mammoth, then preceded to destroy my Lt. Just then a gdi engi comes by and tries to get in my Lt just as i dispose of it. I then kill the engi with a rocket and drive down the hill to find 2 mammoths at the gdi base entrance. I manage to kill both before i lose my mammie to a gunner then die shortly thereafter. All in all, i lost about 1000 bucks for my Lt and charcter while the gdi team lost 4500 for 3 mammies. I'd say that was a pretty good deal.
